

Monty's is asked for by name by Master Gardeners, Garden Clubs and avid gardeners everywhere! The natural science behind Monty's began over 25 years ago as champion rose grower, Monty Justice, was looking for a superior plant food. His original formula has grown into a line of quality products that are used by homeowners, commercial landscapers, and farmers across the country.

Monty's Premium Indoor/Outdoor can be used on all flowering or non-flowering indoor plants to promote moderate plant growth. It is also effective when starting flower or vegetable seeds, plant cuttings or transplanting. Can also be used on trees, shrubs, flowers, and vegetables.

**Application Information:** May be applied weekly, bi-weekly, or monthly depending on the desired results. May be applied to the soil with a watering can, soaker hose, or drip irrigation. May be foliar applied (misting of leaves) with pump-up or hose-end siphon type sprayer. Spray in the early morning or evening when the threat of evaporation is diminished. Monty's is rainfast in 2 hours. Monty's Premium Indoor/Outdoor is a concentrated liquid plant food that should be diluted before using. Dilution rate is 1 teaspoon per 2 gallons of water.
